If you enjoy entertaining in your backyard, then you’re going to love the SONARRAY SR1 SYSTEM! Imagine breathtaking sound quality that is evenly distributed to deliver the perfect volume everywhere, creating ambience and atmosphere. Turn your backyard into an entertainer’s paradise with SONARRAY.
Your Backyard Oasis

The SONARRAY SR1 SYSTEM raises the bar on outdoor entertainment; featuring eight 3.5" satellite speakers that are evenly distributed in an array across the perimeter of the backyard, along with an 8" dual voice coil in-ground subwoofer with a canopy that is hidden under foliage. The result is incredible sonic performance and even volume (Sensitivity) throughout the space, eliminating dead zones and hot spots as well as reducing any disturbance to your neighbors ... All while remaining out of sight.
High Quality, Perfect Volume
Fill your backyard with the highest quality sound at the perfect volume everywhere, with even coverage up to 2000 square feet (186 square meters)*
*Depending upon property layout

Easy To Install
The SR1 SYSTEM runs off of a standard AV receiver or stereo amplifier and consists of 8 satellite speakers and 1 in-ground subwoofer that are easily installed.

Blends In
The satellites and subwoofer are finished in a neutral earth color allowing them to camouflage within the plants and foliage of your outdoor area.

Won’t Disturb The Neighbors
Because the SR1 SYSTEM minimizes excess volume by directing sound to all the spaces in your yard, you can enjoy music at a volume that won’t disturb the neighbors.

Withstands The Elements
Constructed of corrosion proof composites and featuring triple sealed enclosures, the SONARRAY SR1 SYSTEM can withstand even the harshest conditions mother nature has to offer: from –20° to 190°F (-29° to 88°C).
SONARRAY SR1 SYSTEM SPECIFICATIONS

S4SAT (Quantity 8): 3.5” (98mm) anodized aluminum cone & Santoprene surround
S4SAT Dimensions: 6.5” L x 4.125” Dia. (165mm x 105mm)
S8SUB (Quantity 1): 8” (203mm) dual voice coil, polypropylene & Santoprene surround
S8SUB Dimensions: 22” L x 15” Dia. (559mm x 381mm)

System Impedance: 8 ohms per channel nominal
Frequency Response: 40Hz-20kHz +/- 3dB
Crossover Frequency: 100Hz
Power Handling: 50 watts minimum - 125 watts system*
Sensitivity: 85dB and 89dB Sensitivity (satellite and subwoofer respectively), 2.83V / 1 meter
Satellite Dispersion & Throw: 60° dispersion with an optimum listening area 8’-20’ (2.4-6.1 meters) from the satellites
Placement Recommendations: Satellites- 6’-8’ (1.8-2.4 meters) apart along perimeter of listening area
Woofer- The center of the 8 satellites
Enclosure Material: Satellites- Non-corrosive sealed enclosures
Woofer- (HDPE) non-corrosive sealed enclosure
Included Accessories: Eight ground stakes, 24 silicone filled wire nuts
Listening Area: Up to 2000 square feet (186 square meters)*

Wire Recommendations:
18 gauge – up to 100 feet (30 meters) 4 conductor, stranded, direct burial
16 gauge – up to 150 feet (45 meters) 4 conductor, stranded, direct burial
14 gauge – up to 250 feet (80 meters) 4 conductor, stranded, direct burial
12 gauge – up to 400 feet (122 meters) 4 conductor, stranded, direct burial
10 gauge – up to 650 feet (198 meters) 4 conductor, stranded, direct burial

*Visit our website to view the SONARRAY Sound Coverage Calculator.
Specifications subject to change. Direct burial cable required (sold separately).
