

MEDIUM RECTANGULAR ARCHITECTURAL SERIES
UNIVERSAL BRACKET, SHOWN WITH STUD-MOUNT
RAILS (AVAILABLE SEPARATELY)

Sonance Architectural Series® Universal Brackets

The Sonance Architectural Series Universal Bracket system provides tremendous versatility for installing Sonance Architectural Series speakers.

The Universal Bracket allows Architectural Series speakers to be installed into almost any wall or ceiling construction material, including masonry, plywood, cement board, cinder block, aerated concrete and drywall. The bracket attaches directly to the wall or ceiling material; an included MDF backer board provides sturdy attachment backing when retrofitting the bracket into drywall.

Once installed, the Universal Bracket can be adjusted in 2mm increments to accommodate wall material thicknesses from 1/32" (0.8mm) to 1 1/2" (38mm). This adjustment requires no special tools.

Features:

- Installs Architectural Series speakers completely flush with the wall or ceiling surface.
- For use in non-standard applications such as plaster, cement-based substrates, and drywall finishes exceeding 5/8" in thickness.
- Adjusts to accommodate different wall/ceiling material and surface finish thicknesses from 1/32" (0.8mm) to 1 1/2" (38mm), in 2mm increments.
- Available in three sizes (large, medium, and small) and three shapes (rectangle*, round, and square).

Adjustable stud-mount rails (available separately) allow Universal Brackets to be used in standard wood or metal stud new construction. The rails can be field-adjusted to accommodate stud/joist spacings from 12" (305mm) to 24" (610mm). **NOTE: UNIVERSAL BRACKETS FOR LARGE SQUARE AND ROUND SPEAKERS REQUIRE A MINIMUM OF 16" STUD/JOIST SPACING.**

Universal Brackets are available for all three Architectural Series speaker sizes: large*, medium, small, and all three Architectural Series shapes: rectangle*, round and square.

- Available adjustable Stud-Mount Rails allow a Universal Bracket to be used in standard stud/drywall new construction applications.
- Limited Fifteen-Year Warranty when installed by a certified Sonance Architectural Series installer — see Sonance Universal Bracket Installation Manual for full warranty information.
