Sonance Visual Performance Series Receives 2007 Audioholics Consumer Excellence Award

San Clemente, CA—November 2007—Sonance (www.sonance.com), the leading provider of high performance audio design solutions has been awarded the 2007 Audioholics Consumer Excellence Award for its new Visual Performance Series in the in-ceiling speaker category.

The Visual Performance Series in-wall and in-ceiling speaker by Sonance, provide a multitude of audio solutions that both audiophiles and interior designers can attest to. Visual Performance Series is available in various sizes, shapes, and performance levels, to fit the growing demand of high-performance audio without disrupting the home's aesthetics.

Audioholics recognizes the most advanced and forward-thinking products in crucial CE categories with the Consumer Excellence (CE) Awards program. Awards are given to products which serve consumers directly and also those products which serve to improve the business and success of the custom installer. The CE Awards is a clear benchmark award for the products, which will make an impact in the coming year.

About Sonance (www.sonance.com)

Headquartered in San Clemente, California, Sonance was founded by Scott Struthers and Geoff Spencer who introduced the world's first in-wall loudspeaker system to the consumer electronics market in 1982. With distribution in 45 countries around the world, Sonance remains at the forefront of technology by offering innovative design solutions that harmoniously blend sound with designs favored by leading custom integrators, architects, interior-design professionals, and design-conscious clients throughout the world.
