### Las Vegas Red Rock Casino, Resort & Spa Rocks with iPort®

**San Clemente, CA—June 2007**—iPort®, the company which introduced the worlds first in-wall music system for the Apple iPod®, is becoming an important option for builders and custom integrators for residential and commercial jobs that specify the integration of music and sound systems.

Recently, Kelley Technologies selected iPort for 20 of the finest suites at Red Rock Casino, Resort and Spa in Las Vegas, Nevada, which opened in April 2006.

According to H. Waldman of Kelley Technologies, “We selected the iPort to provide guests with the most flexible and user-friendly interface for their personal iPods.”

Hotel guests can easily insert their iPod (any model except for Shuffle) into the iPort docking station located in the wall and enjoy their music throughout their suite via a wired speaker system. A business person occupied for hours with meetings or the weary traveler who has ventured out to see the sights and sounds of Las Vegas, can now take a break and listen to their tunes throughout their room.

At Red Rock

### **About iPort**

iPort, maker of the first in-wall music system for iPod, provides freedom from the constraints of headphones. iPort makes it possible to easily share music and photos through any home stereo or entertainment system. Using innovative technology and unique design iPort is committed to producing products that are stylish, inventive, and as simple to use as the iPod.

For more information, contact iPort at 212 Avenida Fabricante, San Clemente, CA 92672, call 949-492-7777, or go to [www.iportmusic.com](http://www.iportmusic.com).

*iPort is the innovation of Scott Struthers, co-founder of Sonance, developer of the first high fidelity in-wall speaker, and a founding member of CEDIA.*

*iPort is a registered trademark of Dana Innovations*

### **About Kelley Technologies**

Kelley Technologies is a national company that investigates, engineers and integrates advanced communication and entertainment technologies across a broad spectrum of industries. Their highly specialized teams have a proven record of success in developing the most cost-effective and advanced solutions in the market today - products and services that go far beyond those offered by any one-dimensional company.

### **About Red Rock Casino, Resort and Spa**

The resort, operated by Station Casinos and considered the most lavish off-Strip casino ever built in Las Vegas, now offers 816 guestrooms and suites. Inspired by the natural beauty of the neighboring Red Rock mountains and the elegant desert oasis resorts of the mid-20th century, the property is a return to classic Las Vegas, reinterpreted for the 21st century with a contemporary design and the latest amenities, comforts and technology.
