

SONANCE

DIGITAL AMPLIFIERS

12-50 | 2-100

Sonance has been engineering reliable distributed audio longer than any manufacturer in the industry. Building from the legacy of the original SonAmp 260, recognized as the industry's first distributed audio amplifier, today's Sonance Digital Amplifiers utilize cutting-edge technology to bring out the absolute best sonic performance from Sonance speakers.

FEATURES AND BENEFITS

- Powerful, audiophile grade Class-D power supply. Rated at 8 Ohms, 4 Ohms and stable into 2 Ohms.
- Compact form factor allows for space savings in the equipment rack with ample power to the speakers.
- Convection cooled, fanless design allows for direct stacking with no air gap for even greater power density.
- Bridgeable channels for applications when even more power is required.
- Class-D design is 93% efficient for maximum power output with minimal power usage. Full array of input/output connectivity for maximum installation flexibility: line inputs, loop outputs, audio and voltage triggers, (2) Bus input/output, independent volume control per channel.
- Terminal blocks will accept up to 12AWG speaker cable for longer runs and higher performance.
- Certified to worldwide safety standards (TUV, RCM, CE). Meets FCC standards.
- Rack ears and feet included.
