The SONARRAY SR1 SYSTEM raises the bar on outdoor entertainment. Featuring eight 3.5” satellite speakers that are evenly distributed in an array along the perimeter of the outdoor space, along with an 8” dual voice coil in-ground subwoofer with a canopy that is hidden under foliage, the Sonarray SR1 System can stand complete on its own. For spaces that require more coverage, expand Sonarray up to sixteen speakers and two subwoofers on a single Sonance SR 2-125 amplifier. With the new SR1 SAT 4-Pack and a la carte SR1 SUB, expanding the system is easy and flexible. The result is incredible sonic performance and even sensitivity throughout the space, eliminating dead zones and hot spots as well as reducing any disturbance to your neighbors.
SONARRAY SR1 System NOW EXPANDABLE
