Inventor, innovator, leader

From the company that invented the category comes a range of speakers that will exceed your expectations in performance and aesthetics. Whether you are building a new home, or putting sound throughout your existing home, Sonance is the innovator and unquestioned leader in architectural speakers.

Sonance invented the category

Visual Performance Series

- Elegant, sleek appearance disappears seamlessly into any space
- Three shapes and sizes to complement any decor
- Cutting edge design delivers the highest sonic performance
- Solutions for every room and for any application
Match your lighting

Match the size and shape of the lighting in your space with round or square speakers.

Shapes and sizes to fit your design

With a range of different shapes and sizes, you will find a Sonance Visual Performance Series speaker to suit every aesthetic and any application in every room of your home.

Designed to blend in

Sonance Visual Performance speakers are designed with easily paintable one-piece grilles to ensure they blend in perfectly with your décor.
With only two speakers in a room you have uneven volume levels — too loud under the speakers and too quiet away from them.

Uneven sound levels will compromise the atmosphere in your room.
Even coverage
Just as you have several lights across your ceiling to achieve consistent light levels, the same principal applies to your speakers.

By using several smaller speakers, you will not only enjoy perfectly even sound coverage throughout the room, it will also be less noticeable.

Everyone enjoys the perfect level, no matter where they are in the room.
State of the art materials

When it comes to speaker drivers the lighter and more rigid the material, the faster they react to the audio signal; increasing their ability to reproduce music clearly, accurately and with precise detail.

Engineered for excellence

Precision matched components for optimum sonic performance

Better sound, anywhere

Pivoting drivers allow the speakers to be installed where they look best, while the sound can be directed for the best coverage and performance.

Forward-placed woofer design and low diffraction tweeters provide a consistent and smooth power response, both on and off axis.
Purpose built
Every Visual Performance Cinema product is purpose built to bring out the best in your gaming, movies and multimedia experience. Engineered angled drivers deliver uncompromised surround sound and accurate positioning of on-screen entertainment.

Sealed Enclosures
deliver enhanced performance while reducing sound transmission to adjoining rooms. They are engineered to be installed into traditional wall and ceiling cavities.

Coaxial Midrange and Tweeter
reproduce natural sounding dialogue which provides clarity and a sense of reality to movies, TV and gaming.

Carbon Fiber & Rohacell Woofers
provide tight and accurate bass response for sound you can hear and feel.

Immerse yourself in sound
If you take your entertainment seriously then look no further than Visual Performance Cinema products. Designed to surround you with the most breathtaking sound clarity and earth shaking bass that will immerse you into your movies, concerts and gaming.

Subwoofers
Shallow design allows Visual Performance subwoofers to be installed into a traditional wall cavity, leaving only the microtrim grille visible. You’ll experience room shaking bass, without sacrificing any valuable floorspace.
Sonance Visual Performance subwoofers feature innovative dual-inverted spiders, inverted voicecoils, triple Neodymium magnets and laminated carbon fiber cones to deliver tight and accurate low frequencies.

In-Wall
In-Ceiling
Purpose built Surround Sound speakers

Angled Drivers
create the illusion of sound emanating from the screen while keeping speakers out of sight.

Kitchens & Dining Rooms
There’s nothing better than enjoying music while you’re preparing meals or sitting down to enjoy them with family and friends. Visual Performance Series speakers will fill the room with crystal clear music that creates ambiance without being overbearing or distracting.

Family Rooms, Great Rooms, Living Rooms
Make the most of the areas where you spend the most time, whether you’re watching TV or movies, gaming or simply relaxing to your favorite music.

Bedrooms
Enjoy the same sound quality in your bedroom as you do throughout the rest of your home, whether you’re watching TV in bed or listening to music as you get ready for the day.

Nooks, Small Spaces, Bathrooms, Closets and Hallways
With a Visual Performance Series speaker for even the smallest spaces, you can enjoy seamless music in every corner of your home including powder rooms, bathrooms, closets and hallways.

Outdoor Rooms & Patios
Turn your patio into an entertainment oasis with crystal clear music that fills the outdoors with atmosphere. Sonance has a range of class-leading weatherproof speaker solutions to suit any size space.

Home Theaters & Media Rooms
When performance matters, look no further than Visual Performance Cinema speakers and subwoofers for that true Hollywood experience. The in-wall and in-ceiling design delivers big cinema sound without taking up any floor space.

- **Dimensions (Dia x D):** 4 29/32” x 4 29/32” (124mm x 124mm)
The page includes specifications for various loudspeaker models. Here is a structured representation of the data:

### BPS6 Bandpass Woofer

- **Model**: SUR1
  - **Driver Material**: Thinline
  - **Impedance**: 8 ohms nominal
  - **Frequency Response**: 25Hz - 250Hz ±3dB
  - **Enclosure**: VP62R TL (8" x 32"

- **Model**: BPS8 Bandpass Woofer
  - **Driver Material**: Thinline
  - **Impedance**: 8 ohms nominal
  - **Frequency Response**: 25Hz - 250Hz ±3dB
  - **Enclosure**: VP68R SST/SUR

### Cinema

#### VP62R TL
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP62R TL

#### VP65R XT
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP65R XT

#### VP66R SST/SUR
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP66R SST/SUR

### Subwoofers

#### VP62R TL
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP62R TL

- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP62R TL

#### VP65R XT
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP65R XT

#### VP66R SST/SUR
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP66R SST/SUR

### LCR

#### VP62L SR
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 40Hz - 125Hz ±3dB
- **Enclosure**: VP62L SR

- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 40Hz - 125Hz ±3dB
- **Enclosure**: VP62L SR

### Other Models

#### VP64R SST/SUR
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP64R SST/SUR

- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP64R SST/SUR

#### VP68R SST/SUR
- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP68R SST/SUR

- **Driver Material**: Thinline
- **Impedance**: 8 ohms nominal
- **Frequency Response**: 25Hz - 250Hz ±3dB
- **Enclosure**: VP68R SST/SUR

This structured representation captures the essential details of the loudspeaker models listed on the page, including their driver material, impedance, frequency response, and enclosure types.
