

SONANCE CASE STUDY

DOMAINE DU MAS DE PIERRE | SAINT-PAUL DE VENCE

ABOUT MAS DE PIERRE

This breathtaking 5 star luxury hotel just inland of Saint-Paul-de-Vence in France has reinvented itself with a full renovation to its 20 acre property, including all 76 rooms and suites. The atmosphere is serene and luxurious with every detail carefully curated to deliver an exceptional guest experience.

Case study provided by

Pilotefilms

THE CHALLENGE

As with most hospitality projects, the requirements for Mas de Pierre were diverse. The project would need a guest-friendly user interface for systems throughout the property as well as audio to support everything from guest rooms and suites, to garden walkways and entertainment halls.

REQUIREMENTS

A project of this scale and sophistication would require flexible solutions that could deliver a comfortable guest experience while discreetly blending in with the elegance of Le Domaine du Mas de Pierre. The solutions would need to accommodate the various experiences that the hotel offers, including their two restaurants, the spa, pool and exterior spaces, guest suites, and hotel lobby. The audio would need to provide quality listening and support the guest experience at both high and low volumes. The demand included over 150 speakers in form factors that would accommodate each space per design and application.

SONANCE CASE STUDY

DOMAINE DU MAS DE PIERRE | SAINT-PAUL DE VENCE

“The atmosphere that reigns within this resort is a clever mix of zenitude, the French art of living, and a culinary experience. These sensations are throughout the stay and are elevated by the sound ambiance.”

PHILIPPE PANGALLO
COMMERCIAL DIRECTOR, INOVASYSTEM

METHODOLOGY

With the help of Sonance distributor, Pilote Films, and leaning on the expertise of local integrators, InovaSystem, the team at Mas de Pierre were guided to make a selection for audio to match the 5 star elegance of the luxury resort. InovaSystem is a distinguished custom integration company based in Saint-Laurent-du-Var with over 15 years of experience. They specialize in commercial projects, having gained the confidence and trust of verticals like luxury hospitality, universities, and even palaces.

RESULT

Each space throughout Le Domaine du Mas de Pierre is a beautiful expression of elegance, complemented with a pleasing ambiance of music that comfortable emanates, seemingly, from everywhere. Sonance Professional Series speakers are tucked into the ceilings of the lobby and guest suites, Sonance Surface Mount speakers provide audio to the pool area, and Sonance Landscape and OMNI products hide among the foliage of the garden areas. The details of audio coverage and discreet form factors provide an elevated guest experience that makes Le Domaine du Mas de Pierre a standout hotel in beautiful Saint-Paul de Vence, France.

Also featured: Sonance OMNI-6T and Sonance Professional Series Surface Mount

ABOUT SONANCE

Sonance was founded in 1983 by Scott Struthers and Geoff Spencer, who introduced the world's first in-wall loudspeaker. This achievement led to many more "firsts" and a proud heritage of innovation. It also inspired a philosophy that continues to drive the company's brands today: that technology can and should blend in with architecture and great design. With a wide range of solutions that are designed to disappear, Sonance has cultivated long-standing, authentic partnerships with leading architects, interior design professionals, custom installers, design-conscious consumers and end-users, from their home base in San Clemente, California and throughout the world.
